Expression of Interest: Hosting Quality Management Learners

Dear HR Leader / Executive,

The South African Society for Quality (SASQ), in collaboration with a training partner, is currently engaging organisations to explore participation in an important national initiative focused on developing future quality professionals.

We would like to gauge your organisation's interest in hosting learners enrolled in the *Quality Manager (NQF Level 6 - SAQA ID 118768)* qualification as part of a structured learnership programme. There is currently a **potential cohort of 60 learners available for placement in Gauteng**, who will require structured workplace exposure as part of their learnership programme.

This initiative is designed to support organisations in:

- Building a pipeline of skilled talent aligned to their operational needs
- Strengthening quality management systems and compliance activities
- Enhancing skills development and B-BBEE contributions
- Contributing to South Africa's broader economic and skills development goals

Learners will be supported through a structured programme and will require workplace exposure to apply their knowledge in real organisational environments. Importantly, learner stipends are funded, and host organisations will receive ongoing programme support, guidance, and quality assurance.

At this stage, we are not requesting a commitment, but rather an indication of interest from organisations that may wish to:

- Learn more about the hosting process
- Understand the expected roles and responsibilities
- Explore how learners can add value within their environment

Based on the level of interest, SASQ will be arranging a dedicated webinar where full details of the programme will be presented, including:

- Practical implementation guidance
- Benefits to host organisations
- Compliance and governance aspects
- Opportunities for engagement and participation

We kindly request you to indicate your interest by registering by Friday 8 May 2026 via the link below:

<https://forms.gle/4U3TfDCqATDh55oi8>.

Your response will assist us in planning the upcoming webinar and ensuring that the session is tailored to the needs of participating organisations. We believe this initiative presents a meaningful opportunity to strengthen both organisational capability and the broader quality profession in South Africa.

Thank you for considering this opportunity.

Kind regards,
Prof Roy Ramphal

CEO- South African Society for Quality (SASQ)
